

Zaib Technologies Pvt. Ltd.

Embedded System Consultancy, Development and Training

Learn ARM in 3-days workshop

Having conducted the basic and the advanced workshop for 8051, PIC and ARM microcontrollers in various colleges, ZaibTech senses the need to push the bar even higher and guide passionate students in Pune to the next level by launching this workshop at a single place so that all the students gather at this venue.

On 4th, 5th and 6th of February, 2011

ZaibTech brings you “**Learn ARM in 3-days**” workshop which gives you insight to the process of developing a higher end embedded product. The workshop is a unique mixture of theory and implementation, designed so as to expose the students to all the basics of ARM Microcontroller.

Why participate?

ZaibTech offers:

- ┆ All 3-days hands on sessions on ARM demo kits.
- ┆ Face to face interaction with the faculty.
- ┆ Students get a complementary take away ARM kit worth Rs. 1500/- during the workshop.

Who can participate?

ZaibTech would like to give this golden opportunity to:

- ┆ Students
- ┆ College Teachers/ Professors

Zaib Technologies Pvt. Ltd.
